

Why I'm not on chat alot

Chapter 1 by Weirdfriendlessgirl

This is a confession. Um I don't really know if anybody will read this and that's fine. It's not a big deal actually it's more of an explanation. I'm bipolar, basically that means I go from being a super happy normal person to really really depressed in a matter of seconds. Um so that's why some of my stories seem depressing. It's kind of a therapy. Also it's why I'm not on chat a lot of the time because I don't like being like that around people. It's also why I have no friends because some times I get really bad. I can kind of control it with writing and music. And I know it's not a big deal....my parents and boyfriend don't even think it's real. It might not be it could all be in my head. I know what ever it is it's real though. But that's why I'm not on a lot. You guys are so nice and it's really great to talk to you and have people like my stuff but it's also nice to be able to go cry an freak out and not have anyone see. And I might close down my account at some point I really don't know. But mostly this was to let anyone wo was crious know and also to say thank for letting me be normal with y'all.
